

Sources for the fixed/cARRIER oils around the world

Please note; this list is to help you find oils to work and experiment with and is by no means comprehensive or a recommendation of quality. Please forward your favorite suppliers to be added to this list. Also beware of buying on Amazon. There are reputable sellers of course, but also lot of questionable dealers.

I suggest when using a new supplier, buy in small sample sizes first to check if the refinement level is what you are looking for. Some oils are very 'raw' and unrefined.

Crema-Caseras <http://www.cremas-caseras.es>

Redoma Creativa. They only supply minimum orders of 60 euros (I think) and don't have a shop online, but if you email them they send you their catalogue. Their products are also sold by other suppliers. Good quality and organic.
